Last evening a fire occurred in the pattern room on the fourth floor of the boiler manufactory of Messrs. Pease & Murphy, Nos. 494 and 496 Cherry-st. The loss on patterns and tools is about \$\$8,000; on building. \$\$1,000. Fully insured. The origin of the fire is unknown. The extreme mild weather has reopened navigation north of Ponghkeepsie for many miles. For three days in succession vessels have passed up the river. The propeller Hasbrouck will leave Poughkeepsie on Wednesday night for New-York.

On the night of the 24th inst., burglars forced an entrance into the steam carpet-beating establishment of W. H. Jordan, Nos. 437 and 439 West Forty fifth-st., and blew open a small safe, which contained no money, and the thieves retired bootless.

Yesterday, at the Morgue, a post-mortem examination was made of the body of Mrs. Ann Griffith, who was supposed to have been fatally beaten and kicked on Christmas Day by her husband, in their apartment at No. 195 Mott-st. The examination showed that death was caused by intemperance, and that the injuries received from the husband were merely superficial. A rumor was in circulation yesterday after-

noon that "irregularities" have been discovered in the Merchants' Exchange National Bank, on Broadway. The bank officers neither admit nor deny the truth of the report, but say that a committee is examining the accounts, and that if it should be discovered that a defalcation has been committed information of the fact will be reported.

The Commissioners of Public Charities and Correction have selected Mr. John Stacom as Warden of the New-York City Prison, rendered vacant by the election of James E. Coulter to the Pellec Justiceship of the Seventh District. Mr. Stacom was for many years connected with the police force of this city, was elected Councilman in 1864, and continued to serve in that capacity as President of the Board until it was abolished by the Loristans. Eighteen piers for the new Post-Office are in position on the Brondway side. It is thought that but little progress will be made in removing earth and mason-work until Congress appropriates funds, as there is not much money in the treasure for the purpose of paying off the hands engaged on the work. By March the old force will be again at work. The fence has been brought in the width of a sidewalk all around, except on a part of the eastern side. The remainder of the fence will be moved by New Year's. Last evening Joseph Barnabo, an Italian of

No. 14 Roosevelt-st., caused the arrest of an Italian whom he was told had threatened to kill him. On his way home, when passing the corner of Leonard and Baxter-sts., he was met by a friend of the prisoner named Fazzi, who stabled him in the cheek, the blade of the cassing into the mouth, and causing a painful and tily wound. The assailant made his escape. The I was dressed at the New-York Hospital, and Bar-

The unsold lenses of the stalls of the new Eighteenfa Ward Market, in Avenue C, between Sixteenth and Seventeenth-sts., were again put up at auction, yesterday, and the bidding was far more brisk. The greatest run was on the stalls intended for butter and cheese, the prices ranging from \$15 to \$80. One was sold for \$152, and a double stall brought an enormous price, each of its single ones selling for \$170. There was very little bidding for the poultry, vegetable, meat, or fruit stands, they only bringing from \$1 to \$10.

A temperance meeting was held at St. Paul's A temperance meeting was neld at St. Faul's Church, last evening, under the auspices of the National Temperance Association. The Right Rev. Bishop Janes presided. The meeting was opened by devotional exercises, which were conducted by the paster of the Church, the Rev. Dr. Ridgway. The meeting was then addressed by the Rev. Mr. Kittell, who has recently returned from Europe, where he has spent several years in the employ of the Government, the Rev. Mr. Gantz of the Reformed Church in this city, and Horace Greeley. At the close, a collection was taken up.

The funeral services over the remains of the The funeral services over the remains of the mmented by F. J. Randall, an Inspector of the Metropolitan Board of Health, were held, yesterday afternoon, at his late residence, No. 307 Broome-st. His late associates, the inspectors and executive effects of the Board, attended. The services were conducted by the Rev. Christopher Bhodes, and he spoke feelingly of the energy usefulness, and kindness of the Inspector. The remains, which were deposited in the Second-st. Feeting vault. On the strival of Mrs. Randall, they will be taken in charge by the Masonic fraternity, and interred, with appropriate honors, in Greenwood Comeiery. David P. Holton, M. D., took the initiatory steps last evening toward forming what he styles Hygienic Sociables at the Fiftieth-st. Church. The Doctor has taught physiology and the laws of health in this city for many years, and wishes to form a class of young persons, who are to meet with him and discuss the questions affecting physical health. A few little boys and several newspaper reporters were all that answered the summons hast evening; but the doctor said it was easily accounted for—the weather was so shockingly bad—and then delivered an address relating principally to his family history, and heidentally to the proposed classes. It was decided that the classes should begin on Monday next at 4 p. m., and be held each week at the same time. The several addresses will be illustrated by means of skeletons, plates, mankins, etc.

A meeting of property-holders residing on Sixth-ave., between Forty-second and Fifty-ninth-sts., was held last evening, to remonstrate against the confirmation of the assessment on their property to pay for the Nicolson pavement which has been recently laid down there. Mr. Jonathan Edwards, who was chosen Chalrman, briefly announced its object, and requested suggestions as to the best method of procedure. Several gentlemen ander remarks in opposition to the pavement, claiming that it was unfit for the heavy traffic which it was subjected to. The assessment is about 85 per square yard, the total amount for a lot having a frontage of 25 feet being about 8459. Persons living in Eighth-ave., where they have successfully opposed the confirmation of the assessment, were present, and stated that they had engaged counsel, who had prevented the confirmation at an expense of about 855 period. After further consultation it was resolved to appoint a committee of five to take such steps in the premises as they may see fit. The Chalrman then appointed Messrs, McCormack, Grafton, Mead, Koro, Matthews, and Kavannach sheh committee. Upon notion the Chairman was made a member of it, and the meeting adjourned.

A gang of men were very busily engaged yesterday at the south-west corner of Broadway and Warrenst, lowering machinery for the Paeumatic Railway into the basement under Devin's clothing store. This railway has been in process of construction for a year or more, and is said to already extend down the east side of Broadway from Warrenst. to Trinity Churci. Aaron E. Beach, son of Moses Y. Beach, formerly of The Sun, is one of the leading men in the enterprise, but both he and his associates are much "too busy" to give any information concerning it. It is said, however, that the tunnel is cylindrical, about ten feet in diameter, walled with brick and lined with noon, and provided with a track, and that it runs entirely below the sewers and gas pipes. It is further asserted that two gangs of men are employed 12 the excavation, one by day and one by night, and that the earth is stored in the sub-cellar of from the rear of the same building. The machinery which obstructed the south side of Warrenst, yesterday consisted of six or eight "fans" or "blowers," which resembled quarter-sections of a huge cylinder 12 or 15 feet long, and 8 or 10 in diameter.

The Mayor, it is understood, will refer to the matter in his annual budget.

The sale of The Brooklyn Union has now assumed a new aspect. It is said that Mr. Alexander McCue made the purchase merely for the accommodation of Mr. Henry C. Bowen of The Independent, who had falled previously to come to satisfactory terms with Mr. S. B. Chittenden, and that the proprietor of The Eagle is now negotiating for the sale of that journal. In fact, a rumor gained currency yesterday that he had already disposed of it.

THAT HAT STORY.

The renders of The Democrat are aware that during the recent local lection there was a man up town who bet a hat that he could oust Judge Councily from the Registry. He got seventeen of his chums together, treated freely, and they all went to the polls and voted. There was no other person running for the not vacant office, and no other votes were voted. NEW AND HIGHLY IMPORTANT MEDICAL DISCOVERY.

HEALTH TO THE WORLD! DEL ALZORA'S AMAZON PILLS.

AMAZOVA FILLUS.

ALZORA, having discovered in the valley of the river Assazon, in the America, a rare and exceedingly vanuative properties, has been induced by numericus medical sense, who have tested its merita in their own practice, to make its in the form of pilla, to be piaced within the reach of the public, as all mar enjoy the besiefs of a remerity the most certain and efficient caristics agent that has every been discovered in any ag or country, whise own gratification, and to satisfy the public. By Azona has this drug examined by asversal of the first physicians and chemists of Yara, London and Paris—men who have devoted their time to the sign of medical science—who have pronounced it the most important medical discoveries, and have tunited in recommending it to the

medical discoveries, and have united in recommendation of the Amazons Prints are principally composed was by Da. Allona, while traveling in the valuer of the Amazon. Is only to him, and cannot be procured of any one but himself, country or elsewhere.

Allona is an oil physicien of forty rears' experience, who has a liteline to the study and practice of medicine, and he knows mays to be possifiedly from when he states that these Pille are as NAS ASPARDS CUMB for EVERLY DIAMARK. No matter how desperance or how long standing. A trial is all that is necessary to any one who is suffering that they have within their reach the for a restoration to perfect health.

In a restoration to perfect health.

In heady is

the national content of the state of the sta

every disease, and frequently succeeds, but in many cases it needs assistance, and this indispensable aid is what the AMAZON PILLS and the supply.

The object is not to formish a specific remedy for each particular disease. The great value in the AMAZON PILLS consolve in their power to strengthen and build up the system, to impart vivor, tone, and new life to the whole body, and thus render to nature the necessary assistance, and overcome the disease.

The great fault with physicians has always been that they give too sucks medicine. For years the whole community has been dragged with Calomel, Opium, and hundreds of other periodicus medicines, calculated to still more injure the aircast impaired health, and weaken the system, show norm syntaxion was what trequired. The whole of this error most practice has been diseased by Dr. Allona, and a new one substituted, founded upon leng experience and a thorough knowledge of trus medical science. By the use of these Pills, not only is hearthy-scented, and the saffering incident to disease avoided, but years will be added and the suffering incident to disease avoided, but years will be added to give a substitute of dollars saved in physicians and draggists bills, so long as there is life remaining, they will be added, but rears will be added in country difficult of access. But a limited quantity can be at its vine formship that may be desired.

The AMAZON PILLS are main from a plant which is very rare, and found in a country difficult of access. But a limited quantity can be at its vine formship that may be desired.

Dr. M. Nir: Your communication, together with the plant from the Amason River, has been received; and, in compliance with your request, in all the examined and tested the drug with great care, and free statisfied that it contains great curative power as a medical agent, and I am convinced that it will do all and more than you claim for it. It will be truly a bleasing to the world.

G. M. S. SANIPERSON, M. D. Principal.

NEW-YORK, Nov. 14, 1868. Dr. G. R. Allona.

I have obsendedly analyzed and carefully examined the new plant which you handed me, and, after a thorough investigation, I have no healistical in recommenting it to the public as use of the greatest discoveries was made in medical science. This plant possesses properties as a medicine which do not exist in any known herb, and is, hepand question, of the relatest value as a medicine. No remedy has ever come under my observation, which I could recommend so confidently as this? I remain, Doctor,
